

# RECLAMATION, REMEDIATION & SPILL CLEAN UP

**Summit Liability Solutions** is a leader in providing reclamation, remediation and spill clean up services throughout Western Canada. Experienced and knowledgeable in all provincial regulations, guidelines and industry recommended practices (IRPs), we deliver practical and cost effective solutions for a wide array of environmental challenges and situations.

## RECLAMATION AND REMEDIAL SERVICES

Summit utilizes skilled project managers and field technicians with various backgrounds to provide the following services:

- Phase I, II, III Environmental Assessments
- Risk Assessments
- Reclamation Supervision and Reclamation Programs
- Detailed Site Assessments (DSA)
- Reclamation Application Certificate Services
- Certificate of Restoration Services
- Contaminated Site Management
- Pipeline Reclamation Services
- Restoration Project Management

## SPILL CLEAN UP SERVICES

Summit has extensive experience managing a variety of spill or accidental releases - both refined and unrefined - at well sites, pipelines and facilities. Summit has trained responders and project leaders with the ability to manage each unique situation with cost effective remediation or risk management solutions.

## SUMMIT ADVANTAGE

Summit's greatest asset is our **educated and experienced** personnel. Our team has the **technical knowledge** and **background** to complete projects **on time** and **on budget**. This **diversified** group has grown to include professional agronomists, professional chemists,

hydrogeologists, biologists, professional foresters, APPEGA and other certified professionals. We have been very successful in completing projects in a **timely manner**, bringing **closure to sites**, and achieving reclamation/restoration certificates quickly and efficiently. Contributing factors for this success include: **organization, motivation** and a high level of client, landowner and regulator interaction. Our track record proves this.
